## Technical Skills

C java SQL JDBC-API

Hibernate-JPA

HTML5

CSS

Java script

React-js

Spring-Boot

Data Structures and Algorithms like Dijkstra's and Cycle Detection in graphs

## Soft Skills

- Touch Typing, Productive speed of 61-WPM (words per minute) with highest precision.
- Solved 50+ Leet-Code Questions
- Creative and problem solver
- Multi-Tasking
- Quick Learner
- Analytical Thinker

## Other Interests

Reading

Playing Chess

yoga

Fitness Regime

## Objective

Self-motivated, highly passionate. Ace in problem solving skills and self-learning proficiency paved my way to opt this carrier. I committed for self-learning and to resolve stumbling blocks of the Organization.

## Education

**Bachelor of Engineering** | 2019-2022

KLE Technological University Hubli

8.07 CGPA

## Training

Completed 6-Months Java Full-Stack development Course, From Java Training Institute, Jspiders Basavangudi Bangalore

## Projects

### I. Login-Form Using React & JWT Auth:

Real Time secured Login form which uses React in Front End and Spring-security & Spring boot as Backend with JWT authentication enabled. once after registration user will be able to login

<https://github.com/ChetanH358/Login-Form>

### II. News-App using React-Js:

A Real time news-app which uses fetch API and parse the data into Json and renders within component. The next set of news items are automatically updated using infinite scroll component.

### III. Created Text-Utilities using React.js:

This website helps to perform basic operations on text /paragraph like clearing indentations, converting it into uppercase and lower cases and has dark mode Functionality enabled.
